Dear delegates,

First of all, we give you the warmest welcome to SIMUN 2021 and to the Youth Forum committee. We are Daniela Parra, Romina Ruiz, Andrea Hernández and Ingrid López and we will be your Academic Chair for this committee. Throughout the debate we will guide you through this path, in order for you to discover your true potential, since learning and the development of new abilities in young people are the main objectives of SIMUN. For us, it is with great honor and privilege to be part of this great experience and that we know it will help us grow as people.

We have participated in different MUNs as delegates. This has been a great journey full of new and exciting experiences that have taken us to overcome big challenges and obstacles. We hope that this experience guides you towards new pathways of knowledge, learning, personal growth and new friendship bonds, just like it did for us.

Faced with the adversities we are experiencing today, we know it might be hard to participate as delegates or to stay motivated; however, we believe in you and your potential and we will give the best of us. We have chosen, with great care and based on current approaches that concern us as young people, two different and very important topics. We hope to achieve a proper debate by integrating respect, enriching plurality and diversity of proposals that will end up in the best and most viable solution possible. Therefore, do not hesitate to contact us if you have any doubts regarding the committee or the topics arise. Remember we are here to help every single one of you. Wishing you the best, we leave you with the following quote:

"Humanity needs practical men, who get the most out of their work, and, without forgetting the general good, safeguard their own interests. But humanity also needs dreamers, for whom the disinterested development of an enterprise is so captivating that it becomes impossible for them to devote their care to their own material profit."

-Marie Curie.

Sincerely,

The Youth Forum Academic Chair.
