Dear delegates,

We are nothing but pleased to welcome you to the Youth Forum of SIMUN 2022. It is an honour for us to be the academic chair of this committee. Our names are Frida Flores, Ximena Parra and Victoria Fuentes. We are all very excited to meet you.

Let us just say that we feel a huge amount of respect for you because, as a result of the issues of modern society, you are feeling the urge of wanting to do something, take action and change the world; of course it's possible if you want to. Also, we can assure you that Youth Forum is the best place to do so. This is a space for you to discuss all your ideas without being judged, because everything and everyone matters. In fact, it is better to listen to different points of view, so that we can learn to be empathetic to other realities, and young generations have proudly proven their capability to do that.

Therefore, being in SIMUN broadens your perspective by making you listen to other delegates and taking into account youth's proposals for each resolution. Our suggestions as young people shall always be guided by our necessities and our experiences shall always encourage us to make a change. Don't worry; we will stand by you through the whole process. It is going to be worth it. We firmly believe choosing to be part of the Youth Forum will knock you sideways.

Delegates, be sure that we will work exhaustively to make the best out of this experience. We trust that your abilities and potential will guide you through the debate. The chair is indeed looking forward to meeting each one of you. If you have any question, please let us know.

Sincerely,

The Academic Chair of UNESCO's Youth Forum
